

Governor J.B. Pritzker's Mitigation now allows us to be fully open at 100% capacity with no social distancing restrictions. The state is still closely monitoring our metrics on the positivity rate and hospital bed availability, so this can change should the [metrics](#) progress in any direction.

We are currently following the CDC guidelines that vaccinated guests attending events at the Odeum Expo Center are no longer required to wear masks inside the venue.

We request that non-vaccinated guests continue to wear a mask; or, those guests who would prefer to still wear their masks throughout the facility are welcome to do so.

Keep in mind that special events at the Odeum Expo Center will be subject to the policies of the individual event.

We look forward to welcoming you back with our same dedication to your comfort and safety by continuing to exceed expectations with our cleaning and sanitation program...along with your help by following whatever protocol is required while in the Odeum Expo Center.

Thank you for being a part of our family!
Stay safe and healthy!
